------------------------	------------------------------	----------------------------------

Navigation Improved nav bar with cleaner flow.	Dates Users can now change dates.	Charts Monthly bar graph added.	Top UI Upper card redesigned and refined.
--	---	---	---

What's New in v1.0.2

- 1 Improved navigation bar for a smoother app flow and easier switching between sections.
- 2 Date changing is now available, making it easier to review and manage different time periods.
- 3 A monthly bar graph has been added to show clearer visual progress and activity trends.
- 4 The upper card has been improved for a cleaner look and better information display.

Beta Testing Note

This is still a beta build, so some buttons and interactions may not fully work yet. The app is moving toward a more complete and polished experience.

Coming in the Next Beta Version

- Working action buttons across the main screens.
- More polished account and premium sections.
- Additional graph improvements and clearer insights.
- Bug fixes, smoother transitions, and better responsiveness.
